Offshore

2012

MEDIA INFORMATION

LEADING THE MARKET

WWW.OFFSHORE-MAG.COM

Offshore is the leading global knowledge resource for the marine oil and gas industry by any objective media evaluation criteria. The vendors and suppliers vindicate this market evaluation by giving *Offshore* 60% or more of the advertising pages run in a two magazine market over the last five years (source: IMS). One media evaluation that we are extremely proud of is that our 45,000+ circulation is all 100% direct request from subscribers qualified within the last 12 months. Many publications have circulation that slips into a second or third-year category. If you think about the

changes in this industry, you will realize that the older the circulation of a magazine is, the less likely it is that your advertising/sales message will reach the right person. This market leadership extends throughout the many ways that *Offshore* can help you increase your presence and market awareness.

The events organized by *Offshore*, listed on the inside back cover, all have editorial advisory boards composed of operators from the regions they are located in and relevant vendors and suppliers. This allows the editors of *Offshore* to develop personal relationships with operators and gain a keen insight about their concerns and interests. These events include Deep Offshore Technology International (DOT), Subsea Tieback (SSTB), Offshore West Africa, Offshore Middle East, Offshore Asia, Deepwater Operations, and Topsides, Platforms and Hulls, and are recognized as the premier events for the marine oil and gas industry in their respective areas.

Offshore leads the global industry in digital media products as well (see page 11). With eNewsletters that cover regional areas (such as the North Sea, West Africa, Asia, Middle East) and technical areas (Subsea, Drilling, Geosciences), *Offshore* is superbly positioned to strengthen your sales message through a coordinated approach with digital communications, personal communication through conferences and events, and magazine advertising. No other publisher or event organizer offers this depth of penetration.

Today, *Offshore* is much more than a magazine. As the most trusted brand in the maritime oil and gas market, *Offshore* encompasses a robust collection of media forms, reaching professionals both traditionally and electronically. We are always glad to help develop a specialized, in-depth marketing plan, utilizing all the tools we have available to give you the best return on investment for your marketing spend. For events and publishing, please contact our sales team listed on the back cover and thank you for considering *Offshore* for your marketing communications campaign in 2012!

MARK PETERS, VP AND PUBLISHER OF OFFSHORE MAGAZINE

Cover photo courtesy of Shell. Perdido is the world's deepest offshore drilling and production facility.

The oil and gas industry is increasingly seeking new resources in offshore areas, often characterized by deepwater, remote and harsh environments. Specialized skills and technology are required to access these resources. *Offshore's* comprehensive portfolio of print and online products and global events are customized to help you make informed business decisions. At *Offshore*, reader benefit is the driving factor in making every editorial decision.

I encourage you to contact the editorial staff listed below. We value your thoughts and ideas. Our goal is to continue to be the leading voice in the industry, and I invite you to participate.

DAVID PAGANIE, CHIEF EDITOR OF OFFSHORE MAGAZINE

David Paganie, Chief Editor of *Offshore* magazine and Conferences Editorial Director of PennWell's Offshore Group, oversees the Offshore international conferences and all print and online content, and is a member of an internal subcommittee tasked to guide digital media content strategy. Prior to joining PennWell in 2005, he served as editor of Offshore Field Development International at ODS-Petrodata; and as an analyst at Baker Energy. He has over 13 years of experience in the upstream offshore oil and gas industry. Paganie holds a Bachelor of Business Administration degree with a specialty in finance from Ohio University.
DavidP@PennWell.com

Bruce A. Beaubouef, Managing Editor, manages all content flow for *Offshore* magazine, as well as newsletters, website and webcasts; and writes the monthly "Gulf of Mexico" and "Vessels, Rigs and Surface Systems" columns for the magazine. Beaubouef has more than 13 years of experience in covering the oil and gas industry, and previously served as editor of PipeLine and Gas Technology; associate editor for Pipe Line and Gas Industry; and as editor of Pipeline Digest. Beaubouef earned his Ph.D. at the University of Houston in 1997, and his dissertation was published in book form by Texas A&M University Press in September 2007 as The Strategic Petroleum Reserve: U.S. Energy Security and Oil Politics, 1975-2005.
BruceB@PennWell.com

Eldon R. Ball, Senior Editor, Technology & Economics, for *Offshore* magazine and Conferences Director for PennWell's US Offshore Group. He previously served as Editor-in-Chief and Associate Publisher of *Offshore*, responsible for all print, online, and conference content for the PennWell Offshore Group. Prior to joining PennWell in 2002, he held a number of writing, editing, and communications positions with Enron, Lyondell Chemical, Pennzoil, Texas Eastern Corp., and BMC Software. He previously has served as Editor and Associate Publisher of Petroleum Management magazine, Editor of Ocean Oil Weekly Report, Product Marketing Manager for BMC Software, and Media Relations Manager for Texas Eastern Corp. He has a Bachelor of Journalism degree from the University of Texas at Austin. He resides in Fort Collins, Colorado.
EldonB@PennWell.com

Jeremy Beckman has been Editor-Europe for *Offshore* magazine since 1992. Prior to joining *Offshore*, he was a freelance journalist for eight years, working for a variety of electronics, computing and scientific journals in the UK. As Editor-Europe for *Offshore*, he regularly writes news columns on trends and events both in the northwest Europe offshore region and globally. He also writes features on developments and technology in exploration and production.
JeremyB@PennWell.com

Gene Kliewer started at *Offshore* as the international editor in 2006, and now serves as Technology Editor, Subsea & Seismic. In this role, he covers developments in subsea engineering/development/installation, as well as acquisition and interpretation in geology and geophysics. In addition to monthly columns for the magazine on those topics, Kliewer also authors electronic newsletters covering subsea activity, geology and geophysics developments, and upstream industry activity in the Asia Pacific region, including Australia. He has been writing about the upstream petroleum business for several decades.
GeneK@PennWell.com

Jessica Tippee is the Assistant Editor for *Offshore* magazine. She uploads news and video content to the Website, assembles surveys and electronic newsletters, and writes and edits articles for the magazine. She served as editorial intern at *Offshore* in 2009 and 2010 before joining full time in April 2011. She has a journalism degree from Texas Tech University.

CIRCULATION

PEERLESS IN THE WORLD OF OFFSHORE OIL AND GAS

Unmatched in **EDITORIAL, READERSHIP,** and **CIRCULATION** for almost 60 years, *Offshore* reports on marine/offshore exploration, drilling, production, engineering and construction operations on a global scale as well as the economics and politics that drive each regions' activities.

Our commitment to maintaining a key focus on providing exceptionally strong content-driven programs is the reason *Offshore* is recognized as the world leader for all water depths in marine/offshore oil and gas operations.

- *Offshore* is the first and only magazine focused exclusively on offshore exploration and production.
- As the leader in providing regular technology and news updates, *Offshore* provides the most editorial and advertising pages addressing the offshore industry.
- *Offshore* is the only oil and gas publication with 100% one year direct request qualified circulation for print and digital issues
- Serving the industry for 58 years, *Offshore* employs the largest editorial staff of any monthly magazine serving the offshore industry.

“As an offshore service company, we recommend products that are advertised in *Offshore* magazine to our customers and potential prospects.” - **Technical Sales and Marketing**

“*Offshore* magazine equips our team with new ideas and market updates that we discuss with clients or advise the engineering team with.” - **Production, Engineering, Exploration Manager**

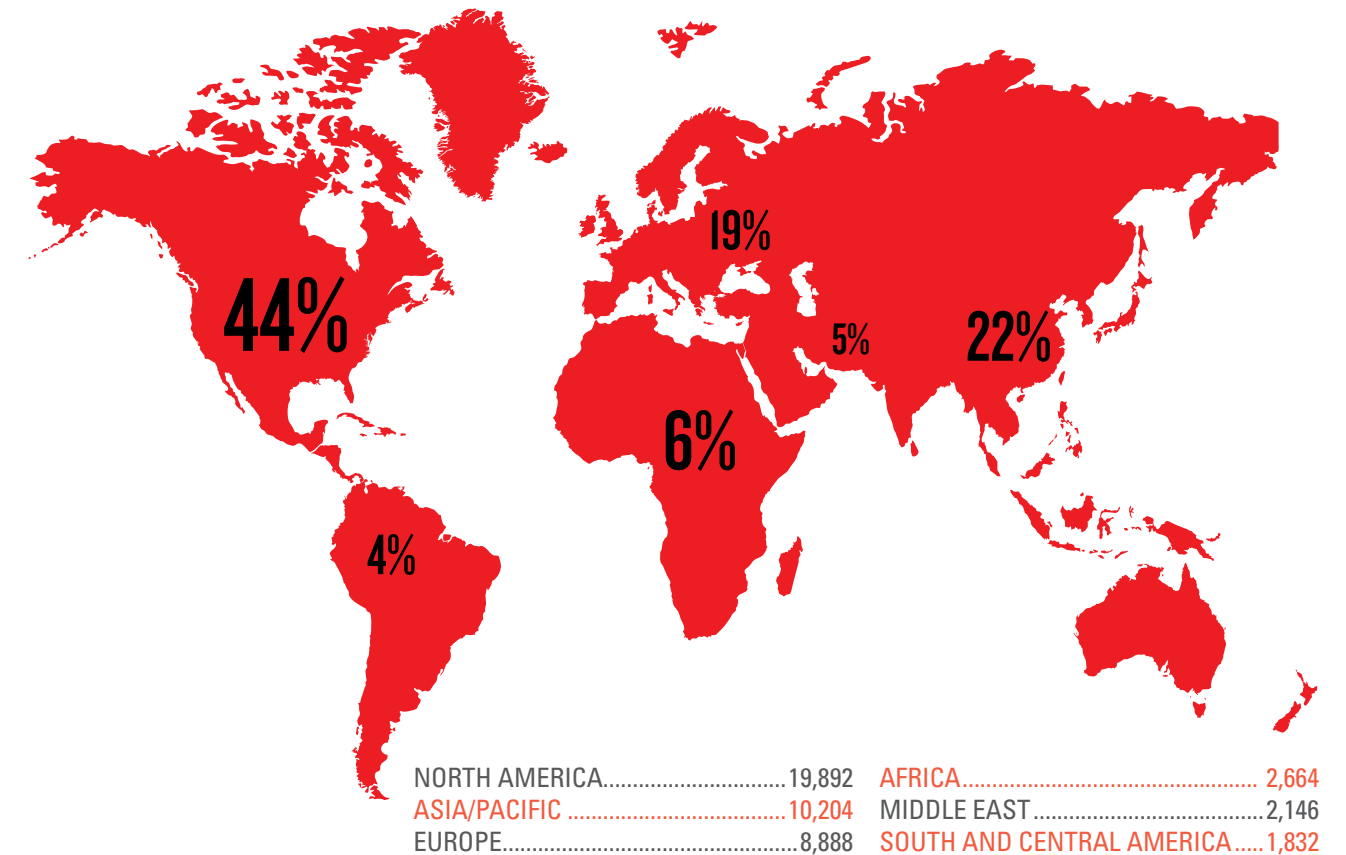

“It keeps me informed of what’s going on in parts of the world where we have interests. I can be on the lookout for evolving technology which could be applicable to our oilfield operations.” - **Production, Engineering, Exploration Manager**

Offshore
Ad Services
1421 South Sheridan Road
Tulsa, OK USA 74112 | **Contact us at 918.831.9484**

PennWell prefers ad material to be supplied as PDFs with PDF/X-1a format option. We also accept ads built in these programs: InDesign, PageMaker, Quark, Illustrator, Freehand and Photoshop.

Please supply all fonts, images and artwork with ads supplied in these applications. All supplied material should be in CMYK color space and have fonts embedded in all graphics.

PennWell does not accept ads built in Microsoft Word, MicroSoft Publisher, PowerPoint or Corel Draw.

PennWell requires a high-resolution color proof of supplied ads to guarantee ad reproduction. This requirement applies even on uploaded materials. If you do not supply a proof we cannot guarantee ad reproduction.

You can also find complete specifications and instructions for submitting ad materials at www.offshore-mag.com/index/advertise.html

Used by engineers, managers, and technical decision-makers, *Offshore-Mag.com* offers a wide range of opportunities, well beyond the circulation of *Offshore*, to put your advertising message in front of a valuable audience and drive traffic to your own site.

Supplement any print message by placing your ad in any one of several IAB standard, large-format positions including page peel, leaderboard, skyscraper, and site sponsorship.

PAGE PEEL

Large format ad that expands or “peels” back to cover the top right corner of the Homepage; highest average click-through rate (CTR) of all units.

File Dimensions: Page Peel Open 900 x 650 (100 KB), Page Peel Closed 75 x 75 (30 KB)

\$8,870/month

LEADERBOARD

Ad unit Runs at the top of the site on any page not part of a Topic Center or sold as a special sponsorship.

File Dimensions: 728 x 90 (40 KB)

\$4,900/two rotations

\$2,950/one rotation

SKYSCRAPER

Ad unit runs on the right on the right rail of the Homepage and all run-of-site (ROS) pages.

File Dimensions: 160 x 600 (40 KB)

\$2,700

SITE SPONSORSHIP

Various positions available on the right rail of the Homepage and ROS pages; all four positions rotate on the page.

File Dimensions: 180 x 150 (40 KB)

\$1,980

CONTENT ROTATOR SPONSORSHIP

Text space available under the scrolling featured article section on the Homepage to place text and a URL.

\$2,500

ONLINE CREATIVE REQUIREMENTS

All placements are accepted in GIF, JPEG, PNG, SWF (Flash)
Max file size for leaderboard, skyscraper, and site sponsors is 40 KB

LARGE PAGE PEEL REQUIREMENTS

Animation /Flash (Flash only)
Sound: Auto off – User Activated

CONTENT ROTATOR REQUIREMENTS

Text link may not exceed 45 characters, including spaces and the URL

“ Offshore allows me to stay up to date with the latest trends in technology within my industry. ”

TOPIC CENTER SPONSORSHIP

The oil and gas industry encompasses a variety of existing and developing technologies. Our aim is to provide information — be it news, research, case studies, project overviews, or new rigs, vessels, or product information— to professionals in all areas of the oil and gas industry. With Topic Centers covering the broad spectrum of today's petroleum industry, you can reach the best qualified prospects for your market. Topic Center sponsorships allow you to "own" a content area and establish your company as a market leader. As a Topic Center Sponsor, only your ads will appear on the page during your rotation.

TOPIC CENTER SPONSORSHIP INCLUDES:

Leaderboard 728 x 90, 300 x 250 and up to 9 text links, or 728 x 90 and 300 x 600

Two rotations are available for all Topic Center sponsorships.

All positions have a max file size of 40 KB.

Drilling and Completion	\$4,700
Production	\$3,400
Deepwater Rotations	
Field Development	\$2,300
Regional Reports	
Geology/Geophysics	
Subsea	\$2,200

WEBCASTS

As the foremost authority on the oil and gas industry, Offshore-Mag.com webcasts provide qualified leads, and position your company as a market leader. Sponsor an event or create your own, leveraging PowerPoint and/or video. Special testing and certification options are also available.

LIVE EVENT OVERVIEW

- Up to one hour in length
- Live and interactive environment, including Q&A
- Audience polling capabilities
- Unlimited audience size
- Personalized introduction and wrap-up message
- Accommodates a downloadable white paper
- Full contact details on all registrants

MARKETING AND PROMOTION

- Offshore-Mag.com homepage promotion
- Email promotion to a highly targeted segment of the Offshore email database
- Promotion in all relative Offshore e-Newsletters
- Reminder email messages sent to registrants 24 hours and 30 minutes in advance
- Full-page promotion piece in *Offshore*

LEAD GENERATION AND REPORTING

- Minimum 150-registrant guarantee
- Full contact information reported for all registrants
- Breakdown of on-demand users and live attendees
- 24/7-protected access to registration database

POST EVENT

- On-demand archive available within 24 hours of live event
Event archived on Offshore-Mag.com for 12 months
- Single Sponsorship – pricing starts at \$18,500
Multi-Sponsored Editorial - \$6,000 (4 sponsorships available)
- Webcasts are scheduled when sponsorships are secured
- Video Opportunities
